

LONG RAKE SPAR
Specialist Decorative Aggregates

Decorative Aggregates and Landscaping Stone

Since 1867 Long Rake Spar have been one of the UK's leading suppliers of specialist decorative aggregates. Our extensive experience, expert knowledge and commitment to quality continues to help transform landscapes.

Contents

- 11** **Platinum Range**
This exclusive range of superior products have been carefully chosen from quarries around the globe to provide landscapers with a unique and highly decorative finish.
- 13** **Slate**
A recycled bi-product of the roofing industry, slate is a widely used surfacing material that provides a cost-effective mulch that helps alleviate water evaporation.
- 17** **Decorative Gravel & Chippings**
Ideal for driveways, paths, borders and landscaping schemes, gravel and chippings offer an environmentally sensitive surfacing option in a variety of colours, materials and sizes.
- 25** **Pebbles & Cobbles**
Our unrivalled collection of pebbles, cobbles, and designer polished pebbles can be used to create attractive displays in interior projects, water features or domestic and commercial gardens.
- 41** **Rockery, Boulders & Feature Stones**
For projects which require enhanced hard landscaping, Rockery, Boulders and Feature Stones provide a dramatic focal point and add impact and interest with their individual colour, texture and sizing.
- 57** **Ancillary Products**
Seasonal products that are durable, reliable and safe to use.
- 61** **Horticultural Range**
Our horticultural range encompasses horticultural compost, growing media, landscaping bark and topsoil from a UK source.

Welcome to The Natural Select

ion

At Long Rake Spar we have been working alongside landscapers for over 150 years to bring the very best decorative aggregate products to British gardens. We know that your garden is an extension of your home; a space to recharge and reconnect. With this in mind we've created **The Natural Selection**, to help bring your landscape to life.

Launched in 2008, the Natural Selection is a unique range of decorative aggregates that have been carefully chosen to add aesthetic appeal and durability to your garden. Our continuous commitment to product development means that the collection is constantly renewed to reflect current colour and design trends and provide smart solutions for outdoor spaces.

The selection includes an unrivalled range of gravel, chippings and slates that provide SuDS compliant surface solutions for paths, driveways, borders and planting beds. It also features naturally rounded pebbles and cobbles alongside boulders, rockery and feature stones to add decoration to your garden.

Our versatile products are suitable for a wide variety of applications and have been chosen to enhance hard landscaping projects. Throughout this brochure you will find information and guidance to help you get the most from the materials you choose, via our suitability icons.

Whether you are exploring the most economic options, searching for an environmentally friendly solution or looking for a low maintenance surface, the Natural Selection will help you find the right aggregate for your garden.

MORE THAN 150 YEARS OF EXPERIENCE AND EXPERTISE

Since 1867 we've been committed to discovering new products and transforming the landscaping industry.

Product development and responsible supply are at the heart of our business, allowing us to provide stockists around the country with an unrivalled range of decorative aggregates and landscaping stone. Our market-focused approach and extensive experience mean that we are able to introduce products that meet the ever-changing needs of customers.

We supply the UK's widest range of decorative aggregates and source products from quarries around the world. We also work closely with British quarries to source products that match local building and garden stone.

**We responsibly
source products
from quarries around
the globe ...**

**... and processes
them at our UK
facilities ...**

**... before distributing
them to stockists
nationwide**

Our decorative aggregates are processed at strategically placed depots around the UK. All our imported products and a variety of our UK sourced products are shipped directly into our dockside storage facilities and onto our various production sites. This helps dramatically lower our carbon emissions and reduce the number of lorry movements on UK roads.

Materials are washed and graded to a superior standard, achieving unparalleled levels of cleanliness and sizing. Products are then packaged and prepared for distribution to our nationwide network of stockists where landscapers and homeowners can order bulk bags or pre-pack bags to help transform their outdoor space.

INSPIRATION AND INSTALLATION

HELPING YOU TO TRANSFORM YOUR OUTDOOR SPACE

CHOOSING THE RIGHT PRODUCT

Our decorative aggregates are available in a variety of material types, colours and sizes that are suitable to multiple applications. Throughout this brochure you will find icons, images and information that will help you easily select the right product for your project.

GOT A QUESTION? CONNECT WITH US

If you're looking for help and advice, inspiration or technical data about our products you can visit our website which features a wealth of information. If you'd like to get in touch with our team you can connect with us on social media or email us.

VISIT YOUR NEAREST STOCKIST

All of our products are available through our nationwide network of stockists. Ask in-store for advice about sampling products and ordering from your local landscaping retailer.
