

LONG RAKE SPAR
Specialist Decorative Aggregates

EDITION 4
2016

The Natural Selection

Landscape design aggregates direct from the quarry

Experience the art of landscaping with the dramatic effect of natural stone...

With nearly 150 years experience in the decorative aggregate sector, Long Rake Spar has gained national status as one of the UK's largest suppliers of hard landscaping products. Our products are sourced from both our own quarries and other quarries throughout the British Isles, Europe and the Far East which enables us to offer the most comprehensive range of decorative aggregates in the UK. This broad supply sector enables Long Rake Spar to be at the forefront of new product development, whilst allowing us to offer extremely competitive prices for the supply of established materials.

Our products are stocked by builders merchants and landscape centres throughout the UK. Our comprehensive product ranges are used for numerous applications including:

- Corporate & Domestic Landscaping.
- Cast Stone & Specialist Concretes.
- Terrazzo Tiles.
- Polymer Flooring & Stone Carpet Systems.
- Decorative Wall Finishes.
- Roofing, Ballast and Aggregates.
- Resin Bonded & Resin Bound Surfacing for Car Parks, Driveways & Footpaths.
- Anti-Skid Products & Highway Demarcation.
- Industrial Minerals & Filter Media.

We also supply Rock Salt for adverse weather conditions

How to Order

Call: 01629 636210
 Fax: 01629 636247 or
 Email: sales@longrakespar.co.uk

Extensive **Pebble Dashing Range** now available in our separate brochure.

Key

We have included a number of symbols within this brochure to make choosing the right product easier:

- Available in Bulk Bags
- 🐟 Fish Friendly
- ♻️ Made from Recycled Products
- Ⓛ Lime Free

Please note – Aggregates and rockery stone are natural products and variations in size and colour may occur due to geological and processing variables. Products may also appear darker in colour when wet, as depicted in most product images within this brochure.

Our environmental policy dictates that we only supply ethically sourced materials from sustainable deposits being operated within current legislative and ecological parameters. We also undertake to source recycled products or industrial bi-products for relevant applications wherever possible.

PLATINUM RANGE

Twelve of the best exclusive products

Long Rake Spar continually strive to introduce new products to the trade that have a high sell through rate, whilst offering an assured profit return. The sales of our uniquely different Flamingo chippings have excelled in this respect, already outselling many established products such as slate, in both bulk bags and pre-pack.

Following on from this success we now introduce our Platinum range of products. These are exclusive to Long Rake Spar and provide a selection of highly desirable, unique decorative finishes.

20mm Onyx

SLATE

A recycled, bi-product of the roofing industry, this material is used extensively as a cost effective mulch which alleviates water evaporation whilst providing a permeable surface for plants and wildlife.

The four colours are washed and supplied in 20mm and 40mm grades and used extensively in hard landscaping projects.

Slate is also tumbled to provide smooth, rounded Paddlestones in a 50-100mm and 100mm+ size. As agents for Welsh Slate we can ensure that these products are offered at their most competitive prices.

DECORATIVE GRAVEL AND CHIPPINGS

Gravels are gaining an increasing presence particularly within environmentally sensitive areas where there is a requirement to conserve water and apply a greener alternative than paving or hard surfaces. These products create an attractive, SUDS compliant surface which reduces the effect of storm water run-off and promotes natural drainage into ground water systems. Alluvial gravels and decorative processed chippings provide an extensive selection of surfacing media for any garden application. Driveways, paths, borders, roofing, surfacing and many general landscaping schemes benefit from this wide range of products.

Coverage – 1 x Bulk Bag laid at 50mm depth will cover approximately 10m² - or 1 tonne of gravel or chippings laid at 50mm depth will cover approximately 12m²

BOULDERS

Our attractive boulders ranging from 150mm - 700mm in diameter enhance any hard landscaping project. Smooth round boulders add great impact and interest with their unique individual colour and texture. These smooth, water worn stones provide a striking contrast and focal point for water features, ponds or rockeries.

GOLDPATH® SELF-BINDING GRAVEL

This graded aggregate provides a flat textured surface for regenerating footpaths, bridleways and access paths. It can also be used within recreational areas, parkland and new build projects where a durable, cost effective surface is required.

GOLDPATH®

| | |
|--------------------------------------|----------------|
| Product Size | 0-10mm |
| Only available Loose or in Bulk Bags | |
| Bulk Bags | 5060085 971812 |

A warm, golden coloured product which has natural self-binding properties providing a flat compacted surface when rolled.

Goldpath® is a cost-effective, durable, textured surface suitable for a wide spectrum of applications from rural footpaths, parks and golf courses to lightly trafficked parking areas and large corporate landscaping schemes.

Spread rates:
 Depth 50mm 100kg/m²

Our certified play sand ensures a clean and safe sand is supplied for little fingers.

ROCK SALT

Rock Salt is used for snow and ice clearance from roadways, paths, car parks, sports stadia and business parks. We supply both pink rock salt and white marine salt. We only supply pure salt without any sand or grit admixtures, to ensure maximum performance and minimal residue.

HORTICULTURAL RANGE - COMPOSTS

Richmoor branded products are manufactured from New Life which is made from 100% recycled green materials and organic forestry matter. Boasting excellent quality, it is clean, safe to use and consistently available in large quantities. It has unique natural water holding properties which ensure an ideal base from which to produce a wide range of high performance growing media products.

The creation of New Life has helped to reuse over 100,000 tonnes per year of recyclable material which would have previously been lost to landfill. As a unique, recycled alternative to peat, New Life represents the future for growing media products.

Our Grantex Surfacing Range is the industry leading collection of high specification washed, dried and screened natural aggregate granules, sands and powders for the UK's resin surfacing industry. In close synergy to our natural coloured Grantex Range is our collection of pigmented high performance aggregate granules which are promoted via our Sightgrip brand. This extensive collection of products offers a vast choice of colours, sizes, textures and performance rated products to the UK's resin surfacing industry.

- Resin Bound & Bonded Surfacing
- Highway Applications & Lane Demarcation.
- Anti-Slip Surfacing
- White Lining
- Resin Flooring & Stone Carpets
- Terrazzo
- Car Park Deck Waterproofing Systems
- Dry Dashing

Customers wishing to specify these products should request a copy of our **Grantex Surfacing Brochure** which contains over 50 different products in a variety of sizes that have been specifically devised for the above market sectors.

www.longrakespar.co.uk

As suppliers exclusively to the Trade we recognise the importance of providing up to date information and technical data on our entire product offering, which is why we promote our website as an excellent resource facility. Full technical data, high specification product shots and corresponding Point of Sale and packaging images are available on our site, providing our stockists with all the necessary tools to make an informed ordering choice, or to assist with the sales and product knowledge that is required to promote our products successfully.

PROMOTIONAL SUPPORT

Our Marketing Department are responsible for producing a wide range of promotional material to support and enhance the sales of our products. We supply a selection of promotional leaflets and posters along with brochures and complimentary samples or sample display boxes as required.

Our newly designed, highly attractive packaging and complimentary Point of Sale items promote our products to ensure they achieve their maximum sales potential.

DASHING AGGREGATES

As suppliers to the UK's leading system installers and external wall insulation contractors we provide one of the UK's most extensive ranges of high quality, double washed, pebble dashing aggregates.

This extensive Pebble Dashing Range has evolved and developed from initially supplying a range of primary established favourites to now promoting a selection of exclusive and unique new products and blends. This vast and diverse range provides a selection of aesthetically pleasing and functional finishes that protect and enhance the external fabric of any building, on new build projects or within the refurbishment of existing properties. Customers wishing to promote or specify these products should request a copy of our **Pebble Dashing Aggregate Brochure** which contains over 30 different products that have been specifically devised for this market sector.

Long Rake Spar's Derbyshire storage and distribution centre.

General Product Application for Landscape and Gardens

Our range of decorative aggregates, cobbles and pebbles are carefully selected for colour and size consistency prior to leaving our quarry, we recommend that all aggregates are washed prior to application, this will ensure best results.

Decorative Aggregates

| Applications | Product Sizes | | | |
|--------------------------|---------------|------|------|------|
